

# Clipping Algorithm Output

## 1. Cohen-Sutherland Algorithm

```
Enter first coordinates (x1,y1): 20  
30  
Enter second coordinates (x2,y2): 500  
700  
clipped line:((100,141) to (213,300))|
```

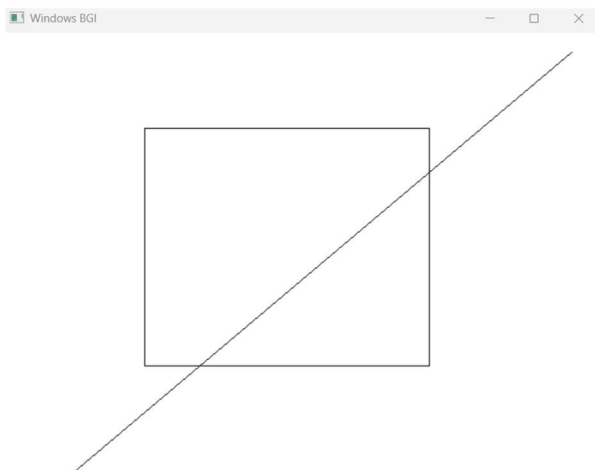

Before Clipping

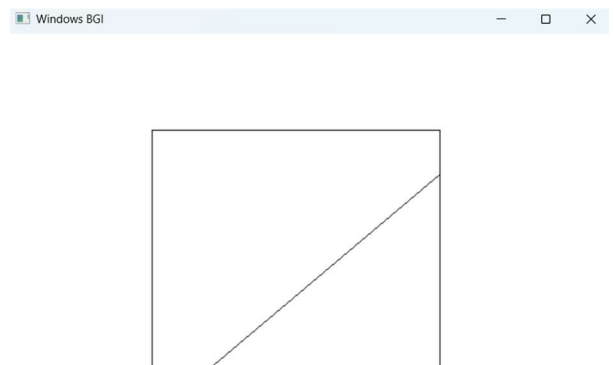

After Clipping

## 2. Liang-Barsky Algorithm

```
Enter first coordinates (x1 y1): 600  
20  
Enter second coordinates (x2 y2): 30  
500
```

Before Clipping

After Clipping
